## SUMMARY

Software engineer with over 1 year of experience, specializing in Frontend and Backend Development and API design.  
Proficient in optimizing database queries, managing server-side logic, and working within agile teams to create scalable, robust application architecture.  
Experienced in building secure, high-performance backend services using modern frameworks and technologies to deliver reliable solutions.

## WORK EXPERIENCE

**Junior Developer, Ogaranya Technology Solutions** | October 2024 - Present

- Designing experiences for Patient Portal, a web and app platform allowing 1.3 million patients from more than 130 countries to manage their health care and access their personal health information.

**Intern, Compudemic** | November 2019 - January 2020

- Developed backend services, integrating RESTful APIs, for e-commerce applications, improving site performance by 20%.
- Collaborated with front-end developers to enhance the overall user experience.

## PERSONAL PROJECTS

**GameSource App** | Vuejs, Firebase, Tailwind

- An internet game archive with login, authentication, authorization and CRUD functionalities

**New Biz Site** | HTML, CSS, FireBase

- A landing page for the newBiz company and uses firebase for server-side functionalities.

**Weather App** | HTML, CSS, Javascript

- An app that tell the weather in your current location

**FastAPI Backend App** | Python, FastAPI, Postresql

- A simple backend movie app with CRUD functionalities

## EDUCATION

**University of Lagos Nigeria**    *B.Sc.*  
Systems Engineering

## SKILLS & TOOLS

Figma	PostgreSQL	Research
HTML/CSS/TailwindCSS	MongoDB	Testing
JavaScript	Figma	Teamwork
VueJs		Adaptability
NodeJs		
FastAPI
